1. Comment. According to the information contained in the present report, it does not appear that the distribution of units of the 7th 3ds Mecz Div and the 32d AAA Div (US) in the various installations in Frankfurt/Oder have changed since the time prior to the departure of the troops for summer training. The barracks installations are carried occupied as follows:

Artillerie Kaserne by the division headquarters, a light and a modium regiment of the 32d AAA Div (WS).

Puelow Kaserne by the 25th 3ds Necz Rogt of the 7th 3ds Necz Div.

Southwest section of Sichhorn Kaserne by a guard unit of the komendatura,

Mortheast section of the Lichhorn Kaserne by a furniture depot of the Kech.

Hindenburg Kaserne by the 57th 3ds Tank Regt of the 7th 3ds Necz Div.

Hoffwauer Kaserne by transient billets for officers and a repair shop.

Horn Kaserne by the Shth 3ds Nv Tank SP Negt of the 7th 3ds Lecz Div.

diethen Kaserne by the U/i Gds How Arty Regt and the 290th Gds AAA Regt of the 7th Gds Mecz Div, and a tank repair shop, probably of the division.

Cantonment of the Norn Kaserne by transient billets for Envolved in the rotation program.

It is noteworthy that all these barracks installations were not occupied to capacity and only little training activity was observed. It is not known if part of the units were absent from the post. The T-34 tanks allegedly observed in the Horn Kasorne presumably were SU 100 guns which, according to T/S, belong to a heavy tank SP regiment.
